SUMMARY

I am an aspiring Full Stack Web Developer currently pursuing a BCA with a solid foundation in web technologies such as HTML, CSS, JavaScript, PHP, and Laravel. My hands-on experience includes building responsive web applications and contributing to projects like College Events Management System and Student Management System. I am eager to enhance my skills through practical experiences and challenges

EXPERIENCE

Full Stack Web Developer Intern

HB Infotech Solutions

📅 08/2025 - Present 📍 Ludhiana, Punjab

An IT company focused on web development, software solutions, and technical training.

- Developed responsive web applications using HTML, CSS, Bootstrap, JavaScript, PHP, Node.js, React, and Laravel
- Worked with MySQL database management and CRUD operations
- Built dynamic web pages and mini projects for improving real-world development skills
- Worked on GitHub version control and project deployment

Hackathon Participant – BYTEVERSE 1.0

CT University

📅 04/2023 - 04/2023 📍 Ludhiana, Punjab

Hackathon Participant

- Worked as Team Leader in an AI-based Face Recognition Attendance System project during a hackathon under the Open Innovation theme.
- Coordinated project planning, task management, and collaboration to build a secure and user-friendly system.

Hackathon Participant -ROBO MANAI 2026

Gulzar Group of Institutes

📅 02/2026 - 02/2026 📍 Khanna ,Punjab

Hackathon Participant

- Participated in Robo MANAI 2026-Next Quantum 3.0 (Selected among the Top 10 teams in a hackathon for developing AMR-ERU (Autonomous Modular Roadside Emergency & Repair Unit) with Team Hack Mavericks Coding Hackathon) at GGI
- Worked on hardware–software integration, emergency control logic, and structured problem-solving in a fast-paced development environment.
- Contributed as a Software Developer by designing the software control workflow, safety validation system, and real-time monitoring features.
- Collaborated effectively with the team enhancing technical and teamwork skills through practical innovation.
